Tools & AI: MS Office (Word, Excel, PowerPoint), AI Prompt Engineering (Claude, v0, ChatGPT)

Core Competencies: Data Entry & Handling, Computer Fundamentals, Responsive Web Layouts

Soft Skills: Communication, Quick Learner, Teamwork, Time Management

Languages: English, Hindi

Projects

ClientPulse — CRM Dashboard & Auth Flow (UI/UX & Prototyping)

- Designed a responsive, light-themed CRM web app including authentication screens (Login/Signup) and a team management dashboard in Figma.
- Built interactive component variants with Default, Focused, and Filled states for form fields.
- Structured precise prompt specifications to generate production-ready React and Tailwind CSS code using AI code engines.

Personal Web Portfolio (Front-End Development)

- Developed a responsive personal portfolio site showcasing UI/UX case studies and interactive web projects.
- Implemented clean CSS layouts and smooth cross-device responsiveness.
